

## **Aransas County Regional Stormwater Management Plan** *An Integrated Storm Water Approach*

### **Invites you to attend its Second Open House**

*Hosted by: Aransas County Officials and project team members from Naismith Engineering Inc.*

**FREE** public participation and information exchange event to improve Flood Control, Water Quality and Ecological Resources; as well as to inform the public, developers and contractors of recently approved Site Development Guidelines, Floodplain Management Rules, Stormwater Quality Design Criteria, and Subdivision Regulations, and future stormwater control construction projects.

**Monday, March 8, 2010**

**6:00 p.m. – 9:00 p.m.**

**Paws and Taws Convention Center**

**402 North Fulton Beach Road, Fulton, Texas**

*"This is a vital project that affects all residents of Aransas County as it will administer stormwater services for the protection and enhancement of public and private properties from poor drainage and flooding. Additionally, it will serve to help protect our wetlands, estuaries and bays from the potential damage resulting from stormwater pollution. I encourage all our citizens to attend the open house and give us feedback and comments on this project."* **Aransas County Judge, C.H. "Burt" Mills**

Verbal and written comments from the public regarding this project are encouraged and will be accepted.

Comment forms will be available at the Open House. Written comments may also be sent to the project team at:

**Attn: Naismith Engineering, Inc. 4501 Gollihar, Corpus Christi, TX, 78411 (361)814-9900 faxed to (361)814-4401**
